

Hello World на React Native

Код программы:

```
import Constants from 'expo-constants';
import {Button, Dimensions, Text, View} from 'react-native';

const My_text = () => {
  return (
    <View>
      <Text>
        Hello world!
      </Text>
    </View>
  )
}

const YourApp = () => {
  return (
    <View style={{flex: 1, justifyContent: 'center', alignItems: 'center',
paddingTop: Constants.statusBarHeight}}>
      <My_text/>
      <View style={{marginVertical: 160, borderWidth: 3, width:
Dimensions.get('window').width}}/>
        <Button
          title={'press me!'}/>
      </View>
    )
  )
}

export default YourApp;
```

Пример работы:

Hello world!

PRESS ME!
